

Tips and tricks to optimize your website - speak to your ideal clients and make them find you

Having a website is one of the best ways to maximize your online marketing and presence. Make sure your potential clients can easily find information about your professional translation or interpreting services by having an optimized website and a strong online presence. This session will show you easy design tips, what content to include for linguists and how to make your website more visible online by using simple SEO tactics. The presenter will give general tips for an optimized website, and will recommend some easy tools and plugins that can help you with that.

Feedback from previous attendees:

"Good hands-on tips for creating websites with information from her own experience"

"A good look at what needs to be considered when creating a professional website with some useful tips, even though it was a bit of a refresher course for me, having been creating websites for about 20 years."

"The information was useful and simple to comprehend, materials can be applied immediately."

"Tess was very well-structured and followed through step by step. She was able to answer most questions and did not even try to pretend she could answer those that she couldn't. Not one minute of the webinar was wasted on guesswork. Excellent work, thank you!"

Length: 1-6 hours, depending on your organization's preferences. This can be a short intro, or a full day course where the attendees can work on their websites and test services.
